

Mr. President, we are Black, Brown and White. We are Jew and Gentile. We are from different communities and diverse backgrounds.

We are First and Foremost Americans. We have voluntarily stood together under the banner of the Tea Party because of wrong-headed policies that are bankrupting our great Nation.

Like most Americans, we believe that government has gotten too big and is spending too much money it does not have. We are opposed to bailouts of the irresponsible and federal bureaucrats taking over our health care.

Together we can Take America Back from an arrogant political class that puts its self-serving interests before those of all Americans.
